

Palletliners offer a simple solution to a common problem

PALLETLINERS

Many pallet users have concerns regarding contamination from mould and dust which is inherent in wooden pallets. Damp pallets can cause moisture to migrate upwards through the stacked products, pallet liners will prevent this.

<u>GSM</u>	<u>THICKNESS</u>	<u>GRADES</u>	<u>PALLET QTY</u>
105GSM	.130mm	RECYCLED	5000
175GSM	.190mm	WHITE AND KRAFT	5000
225GSM	.320mm	RECYCLED	3500
225GSM	.350mm	TWO SIDE KRAFT	3500
360GSM	.575mm	RECYCLED	2000
195GSM	.290mm	MOISTURE PROOF*	4000
255GSM	.370mm	MOISTURE PROOF*	3500
342GSM	.520mm	INDESTRUCTIBLE*	2000
105GSM	.155mm	ANTISLIP SHEET	4000

*Moisture proof refers to this product utilising patented technology, this water resistant paper laminate provides an excellent barrier for moisture sensitive product.

*Indestructible can also be supplied in counter rolls and commonly used in the building industry as a protective paper sheet.

*Indestructible slip sheets are also available in 1265mm x 1165mm.

- Antislip sheets are a special order item only.
 - All stock is a standard chep size (1165mm x 1165mm)
 - Custom sizes are available on request
 - Minimum order quantity 1 pallet
 - Space saving capabilities are advantageous
